KOMATSU®

ABX Series

1 to 1.8 ton capacity

- Series: ABX Series
- Power type: Electric (36 V/48 V battery)
- Color: Yellow

Model	Rated Capacity	Load Center
FB 10-12	1,000 kg	500 mm
FB 15-12	1,500 kg	500 mm
FB 18-12	1,800 kg	500 mm
FB 15F-12	1,500 kg	500 mm
FB 18F-12	1,800 kg	500 mm

The lifting steering column and operator's seat with 6° fore/aft and 3-position back angle adjustments adds to the operator's comfort to help maintain productivity all shift long.

Open top overhead guard design offers the operator a better field of vision to locate high positioned storage locations.

The high torque, 11.4" diameter, series wound, traction motor with field weakening in our "High Performance" models deliver rapid acceleration and top travel speeds (to 30 mph) without overheating and offer exceptional motor brush life.

Komatsu provides 3.5" of mast under clearance. This extra clearance greatly reduces the possibility of mast hanging up or damage when working on ramps or dock plates.

The high capacity, 7.5" diameter series wound hydraulic pump motor delivers power to provide exceptional lifting speeds.

KOMATSU

ELECTRIC POWERED LIFT TRUCKS

BBX Series

2 to 3 ton capacity

- Series: BBX Series
- Power type: Electric (36 V/48 V battery)
- Color: Yellow

Model	Rated Capacity	Load Center
